Password Strength: Weak

Password Guidelines
Your password **MUST** be 6-20 characters and include 3 of the following:

- Number
- Special character
- Capital letter
- Lowercase letter

Note: You may not reuse a previous password.
What is a strong password?

To create a strong password, Fidelity recommends your password include the following:

- At least one special character: % ^ () + , . - / ; : = ? \ ^ _ | ~ ! \$ % @
- No easily recognized sequences (e.g., 12345 or 11111)
- No personally identifiable information (e.g. Social Security Number, telephone number, or date of birth)

Example of a strong password:
KingHenryThe8%^{

Create Your Security Question
If you need to reset your password, you will be asked your security question to verify your identity.

Security Question

Answer

Re-enter Answer

Enter your unique password twice – Note this password for future use!

Select a Security Question from the drop down box and type your Answer twice.

5. Select a Security Question from the drop down box and type in your answer. Re-enter your answer and then click Next.

6. Your registration is complete! The Confirmation screen will come up with your new User ID.
